OTHER RULES:

- 1. SHOOTING AHEAD: A Team may shoot ahead one week only and one time only and has to shoot the appropriate trap. No shooting Behind!**
- 2. 5 team members must be present before signing up their team. Any team signing up without members present **must shoot short or re-sign-up on the next available sheet** after all members show up. This rule is FIRM!! A team will be allowed 20 targets for each shooter they're short and for each shooter they are short \$3.00 must be paid to the prize fund. If shooting short, the following is how the handicap yardage is determined. If a team is short one shooter, the 4 sixteen-yard scores are added together, divided by 4 and add 2 to come up with handicap yardage. This is to figure handicap yardage only. Then when the 4 scores are in from the shooters, 20 targets are added in for a total score. There must be at least 2 shooters actually shooting to use the shoot short rule. No prizes will be awarded to any team who does not have at least 2 shooters shooting any week during the league.**
- 3. Only team representative will be allowed to sign up for the team and will pay the FULL \$75.00 FEE. Team representative need not be the same person each week. Five shooters will shoot 25 targets from the 16 yard line. The handicap yardage will be based on these 5 scores and will be determined by using the handicap yardage sheet.**
- 4. Divisions will be established.**
- 5. WEATHER.** The league **WILL** shoot rain or shine. If some type of dangerous weather comes up (lightning), the teams that have not shot will shoot the following week for the week weathered out and then sign up and shoot for the present week. The make up **MUST** be finished the following week. Gunslick Board Members will make the decision on weather.
- 6. Top Gun Payout.** Example: Two teams have a tie score for first place in their division, 1st and 2nd place money will be added together and divided evenly.
- 7. After a shooter has fired at a target, he can't be substituted for.**
- 8. If a target comes out broken, whether it is a hit or a loss it must be re-shot. If a target comes out whole and a shooter shoots at it, it is a hit or a loss and can't be re-shot. If a shooter shoots at a whole target and gets a blooper, if the wad clears the barrel it is a hit or a loss. If the wad does not clear the barrel the target will be re-shot.**
- 9. Any issues that arise outside the scope of these rules will be handled by Gunslick Board member/members and their decision is FINAL!**
