

GUNSLICK TRAP CLUB 5-PERSON TEAM FALL LEAGUE 2024

Thursday July 18, 2024, runs 8 weeks. No party shoot.

SIGN-UP TIME: 4:30 PM to 8:00 PM. Once signed up, shooting will commence immediately when scorers are available.

SPONSOR FEE: \$35.00 per team.

SHOOTING FEE: \$15.00 per person per week (\$75.00 per team), \$2.00 for prize fund.

SCORING: GTC volunteers will score for the first team signed up on a trap. The scorer for the next team will be a member from the team that just finished shooting on the trap, and so on, until all teams have finished shooting on that trap.

TEAM ROSTER: Each team may carry nine people on their roster and can be on any other team roster. Rosters are closed after the second week. The shooters who shot week one are the first five members of that teams' roster. Teams coming in on the second week will sign up and shoot week one first, then sign up on a trap and shoot week two. Only those shooters listed on a team roster can shoot for that team.

RULES:

1. Each team will be allowed to shoot ahead one time only and must give an advanced notice of more than one day.
2. The first night of the league, each team **must field five shooters.** This also applies to teams signing up the second night of the league.
3. Five team members must be present, available and ready to shoot for the team that is signing up. Any team signing up without five members present, will be moved to the bottom of the list for their scheduled trap. A team member cannot sign you up if you are not on the club grounds, ready and available to shoot.
4. Only a team representative will be allowed to sign up for the team and will pay the **FULL \$75.00**
5. Team representative need not be the same person each week.
6. All teams will shoot fifty targets from the 20-yard line the first week. The second and third weeks, each teams handicap yardage will be determined by their average plus two yards. No team will shoot closer than the 20-yard line.
7. If your team shoots short during the second week, the short shooter's score (from the previous week) will be the lowest average from the team's shooters minus two. A team must pay the \$2.00 for each shooter the team is short.
8. A team will be allowed to shoot short only once using the lowest shooters average minus two. After that, the short shooters score will be twenty total each time.
9. Divisions will be established after the third week and carry through the rest of the league. 100% payback
DIVISION 1: 1st Place = 27 yard line, 2nd Place = 26 yard line, 3rd Place = 25 yard line, 4th Place = 24 yard line
DIVISION 2: 1st Place = 26 yard line, 2nd Place = 25 yard line, 3rd Place = 24 yard line, 4th Place = 23 yard line
DIVISION 3: 1st Place = 25 yard line, 2nd Place = 24 yard line, 3rd Place = 23 yard line, 4th Place = 22 yard line
DIVISION 4: 1st Place = 24 yard line, 2nd Place = 23 yard line, 3rd Place = 22 yard line, 4th Place = 21 yard line
Top Gun Payout. Example: Two teams have a tie score for first place in their division, first and second place money will be added together and divided evenly.
10. After a shooter has fired at a target, he can't be substituted for.
11. If a target comes out broken, whether the shooter hits or misses the target, it must be re-shot. If a target comes out whole and a shooter shoots at it, it is a hit or a loss and can't be re-shot. If a shooter shoots at a whole target and gets a bloop, and the wad clears the barrel, it is a hit or a loss. If the wad does not clear the barrel the target will be re-shot.
12. Any issues that arise outside the scope of these rules will be handled by Gunslick Board member/members and their decision is **FINAL!**

WEATHER:

The league **WILL** shoot rain or shine. If some type of dangerous weather comes up (lightning), the teams that have not shot will shoot the following week for the week weathered out and then sign up and shoot for the present week. If the rainout is called after your team has shot, any targets not shot will be shot the following week, less the number of targets already shot. Example: team shoots 18 targets and the shoot is stopped because of weather, they will need to shoot 32 targets the following week and then shoot their 50 targets for the current week. Gunslick Board Members will make the decision on weather. (We will error on the side of caution).
